

## Find your Ring Size

 If you don't have a Ring

 If you have a Ring

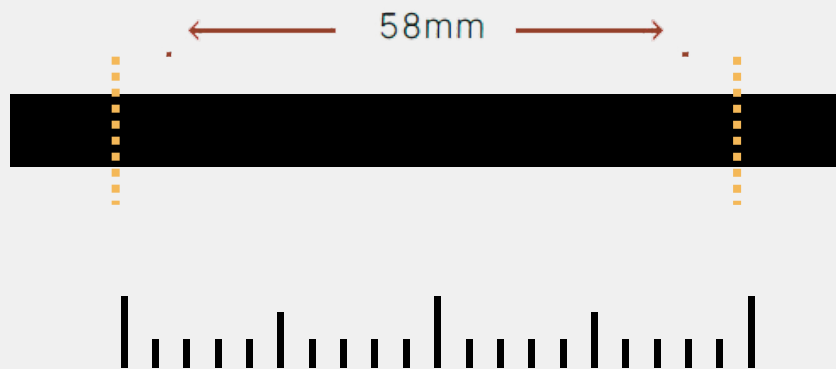

glamstone

## If you don't have a Ring

Take a thin strip of paper, fold it around your finger. Use a pen to mark the spot where the ends meet.

Measure the length with a ruler.

Now that you have the **circumference** of your ring, refer to the chart below to find your ring size.

## Sizes for Indian Scale

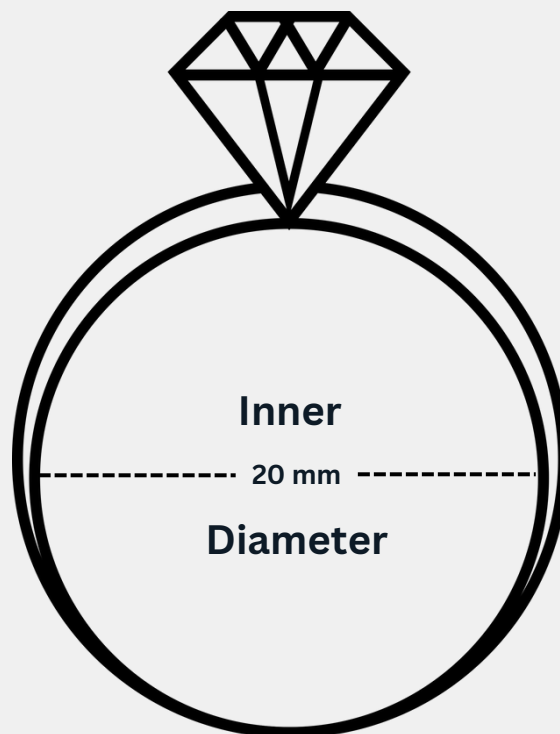

| Ring size | Circumference (in mm) | Ring size | Circumference (in mm) |
|-----------|-----------------------|-----------|-----------------------|
| 6         | 45.9                  | 19        | 59.1                  |
| 7         | 47.1                  | 20        | 60                    |
| 8         | 48.1                  | 21        | 60.9                  |
| 9         | 49                    | 22        | 61.9                  |
| 10        | 50                    | 23        | 62.8                  |
| 11        | 50.9                  | 24        | 63.8                  |
| 12        | 51.8                  | 25        | 64.7                  |
| 13        | 52.8                  | 26        | 66.0                  |
| 14        | 54.0                  | 27        | 66.9                  |
| 15        | 55.0                  | 28        | 67.9                  |
| 16        | 55.9                  | 29        | 69.1                  |
| 17        | 56.9                  | 30        | 70.1                  |
| 18        | 57.8                  |           |                       |

## If you have a Ring

Here's how to find your ring size using a ring you already have:

1. Place the ring on a flat surface.
2. Measure the widest part of the inner diameter using a ruler.
3. Measure the distance from the center of one inner edge to the center of the opposite inner edge.

Now that you have the **inner diameter** of your ring, refer to the chart below to find your ring size.
